Lauren Littig

New York, NY | ll3969@cumc.columbia.edu | (203) 913-1680

EDUCATION

Columbia University Mailman School of Public Health — New York, NY
Master of Public Health (MPH) in Epidemiology | GPA 3.9 — Expected May 2027
Certificate in Chronic Disease Epidemiology

University of California, Berkeley — Berkeley, CA
Bachelor of Arts in Psychology | GPA 3.7 | MCAT 516 — May 2023

RESEARCH EXPERIENCE

Columbia University Vagelos College of Physicians and Surgeons — New York, NY
Clinical Research Coordinator, Taub Institute for Alzheimer's Disease and the Aging Brain — Sep 2025 – Present
PI: Adam Brickman, PhD

- Coordinate day-to-day operations for the NIH-funded Vascular Contributions to HIV-Associated Neurocognitive Disorders (HAND) Study, which investigates vascular, social, and biological contributors to cerebrovascular disease and cognitive aging among adults with and without HIV
- Co-lead study implementation including REDCap development, participant enrollment, biospecimen and physiologic data collection, cognitive testing, neuroimaging, reimbursement, and longitudinal data management
- Conduct epidemiologic analyses in R and SAS using population-based datasets to investigate mechanisms underlying vascular contributions to cognitive impairment and dementia (VCID), with current work focused on longitudinal relationships between white matter hyperintensities and Alzheimer's pathology using harmonized data from the Alzheimer's Disease Sequencing Project

Yale University School of Medicine, Department of Neurology — New Haven, CT
Clinical Research Associate, Yale Comprehensive Stroke Center — Sep 2023 – Aug 2025
PI: Adam de Havenon, MD, MSCI

- Independently led end-to-end operations for two NIH-funded clinical research studies (BP-VISO, MR-SCREEN), overseeing study design, IRB submissions, enrollment, neuroimaging, data collection, and longitudinal follow-up
- Expanded knowledge in clinical presentation, pathophysiology, and management of neurological and cerebrovascular diseases through weekly Morbidity & Mortality conferences and grand rounds presentations
- Analyzed large-scale clinical and epidemiological datasets (e.g., ARIC, SPRINT, UK Biobank, PLACES) using R and STATA to identify biomarkers in stroke risk prediction and vascular causes of cognitive aging
- Contributed to 3 grant proposals, 10 manuscripts (1 first-author), 9 abstracts (3 first-author), and delivered 5 conference presentations

UC Berkeley Haas School of Business — Berkeley, CA
Behavioral Lab Undergraduate Research Apprentice / Lab Manager — Aug 2020 – May 2023
PIs: Cameron Anderson, PhD & Angus Hildreth, PhD

- Designed and implemented laboratory, field-based, and online experiments examining how power, status, loyalty, and ethical behavior influence group decision-making, leadership, and performance, enrolling approximately 100 participants weekly
- Managed experimental data and contributed to statistical analyses, literature reviews, participant recruitment, data collection, and manuscript preparation across multiple social psychology and behavioral economics studies
- Promoted to Lab Manager and mentored a team of approximately 15 undergraduate researchers by training new members, coordinating research responsibilities, and fostering an inclusive and collaborative laboratory community

WORK EXPERIENCE

Support, Opportunities, and Rapport (SOAR) For Youth — Oakland, CA
Tutor for High School Student in Foster Care — Sep 2020 – May 2023

- Provided twice-weekly academic tutoring and long-term mentorship to a high school student in foster care, supporting coursework in math, science, history, and English
- Adapted teaching strategies to address educational gaps, build confidence, and foster intellectual curiosity and independent problem-solving skills in a student navigating significant social and academic instability

CVS Health Bay Area, CA
Pharmacy Technician & COVID-19 Vaccine Clinic Staff Member Jan 2021 – Jan 2022

- Assisted pharmacists and NPs with COVID-19 vaccine clinics at long-term care facilities, and managed dose distribution, consent forms, and updated electronic immunization records
- Filled and distributed prescriptions, and managed third-party billing claims, prior authorizations, and inventory
- Developed a strong understanding of healthcare provider-pharmacy-insurance dynamics, medical and pharmaceutical terminology, and FDA drug safety guidelines

UC Berkeley Athletic Study Center Berkeley, CA
Undergraduate Statistics, English, and Philosophy Tutor Nov 2020 – Dec 2021

- Led weekly small group sessions with statistics students to review lecture material and practice coding in R
- Worked with English and philosophy students on an individual basis, aiding in idea generation and providing feedback throughout the editing and revision process
- Participated in weekly training workshops to enhance tutoring strategies in each subject

LEADERSHIP & DEVELOPMENT

UC Berkeley Women's Varsity Rowing, *Division I Student-Athlete* Sep 2019 – May 2023
Delta Gamma Fraternity, *Honor Board Junior Class Member* Dec 2021 – Dec 2022
Delta Gamma Fraternity, *Director of Service Hours* Dec 2020 – Dec 2021
Cal Student-Athlete Advisory Committee, *Women's Rowing Team Representative* Aug 2019 – May 2021
Lenox Hill Hospital, Department of Neurosurgery *Shadowing and Seminar Series* Jun 2020 – Aug 2020

VOLUNTEER & COMMUNITY SERVICE

Columbia University Mailman School of Public Health New York, NY
CIPHER (Community Public Health Literacy) Organization – President Sep 2025 – Present

- Progressed from General Member (Sep 2025 – Apr 2026) to President (Apr 2026 – Present), overseeing club operations, leadership meeting agendas, and project timelines across community outreach, health education, and programming teams
- Coordinate ongoing partnerships and service projects with Washington Heights and Upper Manhattan organizations, including community resource drives, digital literacy workshops, and K-12 tutoring at P.S. 128
- Manage organizational infrastructure including meeting summaries, budget/reimbursement processing, website updates, recruitment, and tracking logs for projects and deliverables
- Build sustained relationships with children and families to promote health literacy around hygiene, wellness, and preventive care in an accessible, community-centered manner

Columbia Student Medical Outreach (CoSMO) Free Clinic New York, NY
Health Coach Jan 2026 – Present

- Serve as a longitudinal Health Coach in the student-run CoSMO free clinic, providing ongoing support and health education to 3 to 5 underinsured patients in Washington Heights weekly
- Conduct one-on-one patient counseling on diabetes management, medication adherence, nutrition, exercise, and chronic disease prevention using motivational interviewing techniques and individualized patient education strategies to improve self-management skills for chronic conditions
- Help bridge communication gaps between patients and the healthcare team by reinforcing treatment plans, assessing understanding of diagnoses, and addressing barriers to care
- Screen patients for food insecurity and facilitate access to resources such as the NYC Health Bucks program
- Document encounters and collaborate with interdisciplinary student clinician teams to support continuity of care

The Mount Sinai Hospital New York, NY
CARE Program Inpatient Volunteer May 2022 – Aug 2022

- Provided companionship to unaccompanied older adults at risk for delirium and engaged in a variety of cognitively stimulating activities such as card games, knitting, puzzles, and painting

Radiology Clinic Volunteer May 2022 – Aug 2022

- Assisted with greetings, medical histories, and office procedures in a radiology clinic for underserved populations offering mammograms, ultrasound, and X-ray imaging

PRESENTATIONS

April 8, 2025 – Poster Presentation – "Severity of Hearing Loss as a Predictor of Dementia Risk", American Academy of Neurology Annual Meeting, San Diego, CA

February 7, 2025 – Podium Presentation – "Racial and Ethnic Disparities in Post-stroke Quality of Life", International Stroke Conference, Los Angeles, CA

February 6, 2025 – Podium Presentation – "Association Between Kidney Function and Severity of White Matter Hyperintensity", International Stroke Conference, Los Angeles, CA

February 5, 2025 – Poster Presentation – "Stroke Risk and Urinary Albumin-to-Creatinine Ratio", International Stroke Conference, Los Angeles, CA

May 15, 2024 – Podium Presentation – "Vascular Contributions to Cognitive Impairment and Dementia", Connecticut Alzheimer's Disease and Related Dementias Coalition, Hartford, CT

SKILLS AND CERTIFICATIONS

Statistical Programming: R (advanced), STATA (intermediate), SAS (intermediate)

Additional Technical Skills: EPIC; REDCap; Oncore; Advarra; Adobe Illustrator

Certifications: CITI Research, Ethics, and Compliance Training; Licensed Pharmacy Technician in CA & CT; NIHSS & mRS; Certified to administer and score neuropsychological assessments including MoCA, SRT, Benson Complex Figure, Digit Symbol Coding, Trails A and B, MINT, WRAT, and the NIH Toolbox

Languages: English (Native); Conversational French; Medical Spanish (beginner)

Interests: Graphic Design; Cooking; Skiing; Surfing
